

**Madelline Ramírez Montes**  
**Academic Assistant/Kinder SEP**  
***El Árbol Green School***

Madelline obtained a Bachelor's degree in Preschool Education, focusing on the analysis of how different settings have an impact on students' ability to learn.

Before moving to Playa del Carmen 15 years ago, she worked at different nurseries and preschools in her native Tampico, Tamaulipas. Once she settled in the Mayan Rivera, she found an opportunity to work with children again within the hospitality business, being responsible of childcare activities and services at a local hotel.

She held a preschool teacher position at Colegio Inglés and later taught primary classes at Mayaland. She also joined the preschool team at Edugando, where she taught language communication skills and math for three years, and served as the school's SEP technical director. There she learned a new teaching method where children are allowed to develop their learning skills through play.

Madelline has been part of the educational community of El Árbol for four years and has a sincere love for helping children achieve their goals and develop their creativity to the max.
